DIGITAL THAT MATTERS

## Our Offer

Taking in consideration the big challenge that companies are facing monitor the health of employees in such a delicate moment, **Intcom**, embraced the challenge and created a specific solution to address the needs of these companies and the result of this initiative is the **BlueDirect Health Management**.

### What is it?

It is an online tool that allows doctors/managers to monitor/tracking cases in real time, conduct health research and report test results, in addition to allowing employees to access their individual profile to respond surveys, view test results and even receive company communications and guidance.

### How does it works?

The system has 2 types of access:

#### Employees

With a simple and friendly interface, employees can answer medical questionnaires and report their health conditions daily.

#### Doctors

Doctors receive this data in real time and are able to monitor all cases, they can organize by projects, contracts and roles for example.

## Dynamic processes suited to your company

Thinking of providing solutions to different scenarios and situations, we developed a tool that allows each company to configure the processes in its own way, informing those in charge, start and end date, periodicity and which projects or departments must answer the questionnaires.

### Processes

- ✓ Process management
- ✓ Forms control
- ✓ Data filtering
- ✓ Periodicity definition

### Forms

- ✓ Dynamic form
- ✓ Conditional questions
- ✓ Custom field types
- ✓ Multiple sections

The tool also allows the creation of dynamic forms, ensuring a better calculation, optimizing time and cost compared forms being used in a traditional way.

### Profiles

- ✓ Personal data
- ✓ Employee availability
- ✓ Exam history
- ✓ Forms history

Different access profiles can be configured in the tool, making it easier for managers and medical teams to monitor the data they really need.

## Mobile interactivity

Offer your employees the transparency and convenience of answering medical and health questionnaires wherever they are.

From the creation of specific forms by purpose, each employee will answer only the questionnaires directed to him and at the intervals determined by his manager.

### **Mobile**

- Individual access to each employee with information on the current health status based on filling out the previously registered health monitoring form and access to registration information.**
- Immediate response to the medical form with all the information requested by the company and forwarding automatically to the doctor's control panel.**

The image shows a smartphone displaying a mobile application interface. At the top, the BlueDirect Health Management logo is visible. The screen displays a form titled "Forms" under the heading "Health Care Data". The form contains the following sections:

- Have you taken any exams related to COVID-19?**
  - Yes
  - No
- Start Date**
  - MM/DD/YYYY
- What was the test result?**
  - Positive
  - Negative
  - Pending
  - Immune
- Did you felt any of the below symptoms in the last 15 days?**

# Corporate Medicine 4.0

**Advantages for doctors, nurses and managers:** real time follow up of the status of exams of all employees. Intelligent search of employees by function, project or vessel, exam status etc. quickly see who have not yet taken the exams or exams that already expired.

It allows managers and doctors to verify engagement to answering the health questionnaire and generate comprehensive information from individualized entries. It lists all exams performed by employees and their respective results.
